EXPERIENCE

Software Engineer

July 2022 – Dec 2024

Meta

Burlingame, CA

- Protected authentication and telemetry for millions of Quest devices by updating cryptographic signing infrastructure across Qualcomm TrustZone (C), Android system services (Java), backend APIs (Hack), and services (C++).
- Mitigated hardware theft and IP risks on tens of thousands of development devices by engineering a secure unlock token system across Qualcomm PBL (C), backend, and internal tooling (Hack).
- Streamlined cross-team collaboration as the primary technical liaison between device security and internal tooling teams, executing codebase migrations (JavaScript to TypeScript) and authoring key engineering documentations.
- Safeguarded Project Aria 2 launch by serving as the primary security engineering liaison across 5+ partner teams, translating requirements into engineering roadmaps, and adapting security features to resolve architectural deadlocks.

Research Engineer

Sept 2025 – May 2026

Creative Machines Lab at Columbia University

New York, NY

- Revived a stalled research project by containerizing and overhauling legacy slicing softwares (Python, Docker, Slic3r/PrusaSlicer) to enable generation of 3D printing control files (G-code).
- Enabled research initiatives on novel form factor 3D printing by designing and implementing control file generation software (Python) and integrating servo motors with the Duet control board.

Software Engineer Intern

June 2020 – Sept 2020; July 2021 - Sept 2021

Zillow

Seattle, WA

- Enhanced profile management capabilities for property and business owners by designing and implementing a new backend API and data model, and porting profile updates across web and mobile applications.
- Built new first-time user flows on iOS (Swift) to improve renter onboarding, integrating preference selection and filtering to personalize search results from first use.

SKILLS

Programming Languages: C, C++, Python, Java, TypeScript/JavaScript, Hack/PHP

Systems & Tools: Linux, Docker, Git, Android, PyTorch, Mujoco, Duet3D

Languages: English (Fluent), Chinese (Fluent), French (Beginner, actively learning)

EDUCATION

Columbia University

New York, NY

Master of Science in Computer Science. GPA: 4.123/4.33.

Sept 2025 - Dec 2026 (Expected)

University of Washington

Seattle, WA

Bachelor of Science in Computer Science. GPA: 3.848/4.0.

Sept 2018 - June 2022
